EXHIBITS ON DISPLAY

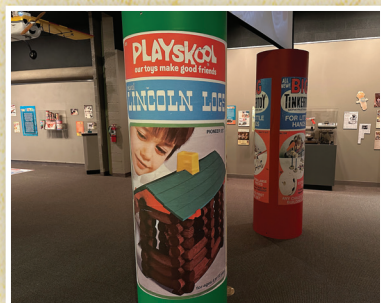

MIDWEST COMFORTS

ON DISPLAY THROUGH JULY 7, 2023

Food is often about comfort as much as it is about nutrition and many of us have special memories about family recipes.

Whether it's Grandma's chocolate cake, Dad's jambalaya, or Mom's chicken and noodles there's always a recipe that's close to our heart.

"Feast" on family recipes and food nostalgia at *Midwest Comforts*. Peruse recipes from local cooks and reminisce over forgotten food advertisements and local establishments.

THE TOYBOX: GENERATIONS OF PLAY

ON DISPLAY THROUGH MARCH 30, 2024

"A spring, a spring, a marvelous thing! Everyone knows it's Slinky!"

Whether you remember the iconic Slinky jingle or have fond memories of playing with *Lincoln Logs*, *Care Bears*, *He-Man* action figures, *Playskool* toys, or board games like *Mall Madness*, this exhibit is for you!

Play with jumbo toy replicas, like *Lite Brite* and *Sorry!*, watch old commercials, and see countless toys that will send you back to the playroom of your childhood.

UPCOMING EXHIBIT

CEDAR VALLEY DEFENSE MANUFACTURING DURING THE WORLD WARS

OPENS AUGUST 15 | GROUT MUSEUM OF HISTORY & SCIENCE

Did you know that Waterloo's local John Deere plant worked on tanks during World War II? What about Chamberlain Manufacturing's production of artillery or Rath Packing Company supplying fighting men and women with meat? During peacetime, manufacturing in the Cedar Valley provided locals with trusted products and services, but what about during the world wars? Visit this new exhibit to learn just that.

Photo Caption: Front of the Rath Packing Company Administration Building, located at the intersection of Sycamore and Elm Streets in Waterloo, Iowa. Built in 1925, it is listed on the National Register of Historic Places.

NANO MINI EXHIBITION at the IMAGINARIUM

On Display June 1 - December 11, 2023

Nano is an interactive exhibition that engages family audiences in nanoscale science, engineering, and technology. Hands-on exhibits present the basics of nanoscience and engineering, introduce some real world applications, and explore the societal and ethical implications of this new technology. Nano was created by the Nanoscale Informal Science Education Network (NISE Network) with support from the National Science Foundation.
